WITH BRAUNFORM

Giving the world new shapes with visionary ideas

BRAUNFORM -
INJECTION MOLDS FOR
YOUR SOLUTION.

 **BRAUN**[®]
Molding your visions

A vision turned reality

DECADES OF PASSIONATE COMMITMENT TO INNOVATION.

Vision Portfolio Technology Our Identity

Braunform – Excellence in Moldmaking Since 1977

Braunform is one of the world's leading specialists for high-precision injection molds. The company develops and manufactures molds that enable customers around the world to produce sophisticated products efficiently and reliably.

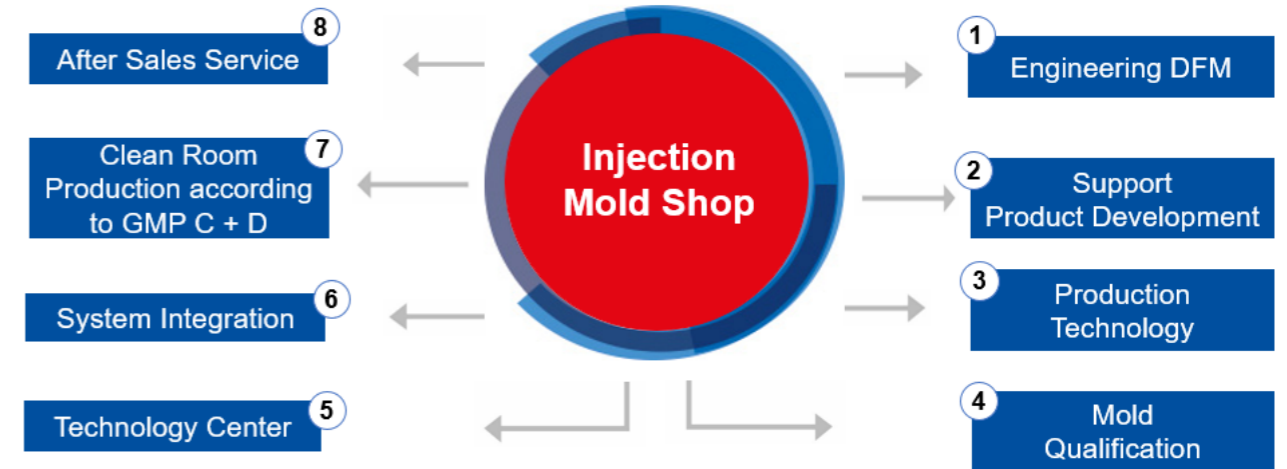

What once began as a regional family business is now a global partner – especially for the healthcare industry. With state-of-the-art technology and uncompromising precision, Braunform creates molds that make the production of medical components possible and thus contribute to improving quality of life worldwide.

As an owner-managed company with an international focus, we act responsibly and with a clear focus on the future – always with the goal of delivering sustainable and high-performance solutions for our customers around the world.

AT BRAUNFORM, WE ARE COMMITTED TO GIVING OUR CUSTOMERS MAXIMUM RETURN – WITH OUR EXPERTISE, THE DEDICATION OF OUR STAFF AND OUR PASSION FOR INNOVATION AND TECHNIQUE.

Our Objectives:

- Increasing production efficiency
- Reducing costs
- Support and advice for sustainable production processes and material savings
- Service spectrum from product development to series production in clean room according to GMP C + D

Bahlingen am Kaiserstuhl: company headquarter, mold shop

Bahlingen a. K.: technology center

Eendingen a. K.: cleanroom production according to GMP C + D

OUR CERTIFICATIONS:

- DIN EN ISO 9001
- DIN EN ISO 15378
- DIN EN ISO 13485
- DIN EN ISO 14001
- DIN EN ISO 50001

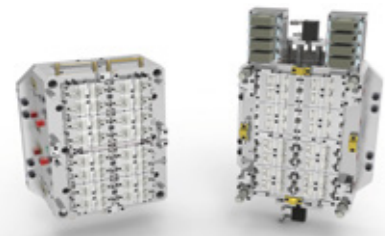

CUSTOMER LOYALTY THROUGH SUSTAINED INNOVATIVE STRENGTH.

Pharma

When It Truly Matters!

Injection Molding in the Cleanroom Requires Absolute Precision and Uncompromising Quality. With more than 30 years of experience in the pharmaceutical and medical market, our MED Mold® standard has stood for maximum process reliability, cleanroom suitability, and technical excellence since 2011 – a clear quality promise for highly regulated industries.

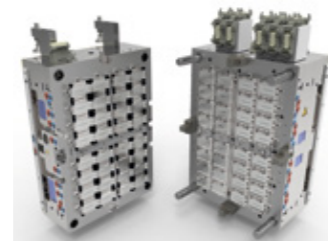

WATER TECHNIQUE

Precision for Sustainable Irrigation

Braunform develops durable, high-performance injection molding tools for drip irrigation systems. Tight tolerances, short cycle times, and high cavity numbers ensure accurate dosing and support efficient, resource-conserving water usage.

PROACTIVE CUSTOMER FOCUS, HIGHLY QUALIFIED EMPLOYEES AND A DISTINCTIVE SENSE OF QUALITY COMBINE TO CHARACTERIZE A COMPANY WHOSE SUCCESS STEMS FROM A SECURE FOUNDATION.

Personal Care

Where precision meets aesthetics

Functionality and design carry equal weight. Our high-cavity multi-component molds meet the highest expectations in terms of quality, efficiency, and aesthetic perfection. For decades, our tools have stood for **efficient life-cycle management, reproducibility, and 100% interchangeability of spare parts** – even across subsequent generations of molds.

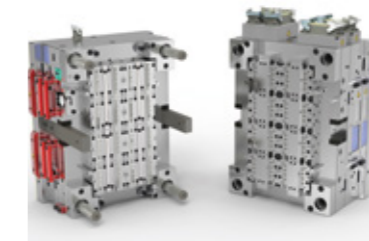

Consumer Goods

We don't just talk – We act sustainably!

Cost-effective realization of innovative product ideas through high-tech moldmaking technology. Our goal: reducing your unit costs through shorter cycle times and highly efficient tooling.

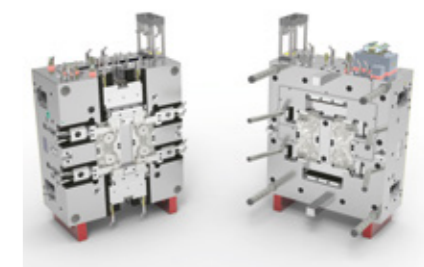

Technical parts

Technology leadership by innovation!

Highly complex geometries, tight tolerances, and optimal cooling design – combined with the safe handling of our tools at global production sites. Talk to us.

PERFECT MASTERED TECHNOLOGY— THE BASIS FOR IMPRESSIVE NEW SOLUTIONS.

At Braunform, there are no off-the-shelf products. Every mold is custom-made 100% individually.

Engineering Made in Germany – a claim we are proud of. It is a challenge that Braunform embraces every single day with new moldmaking

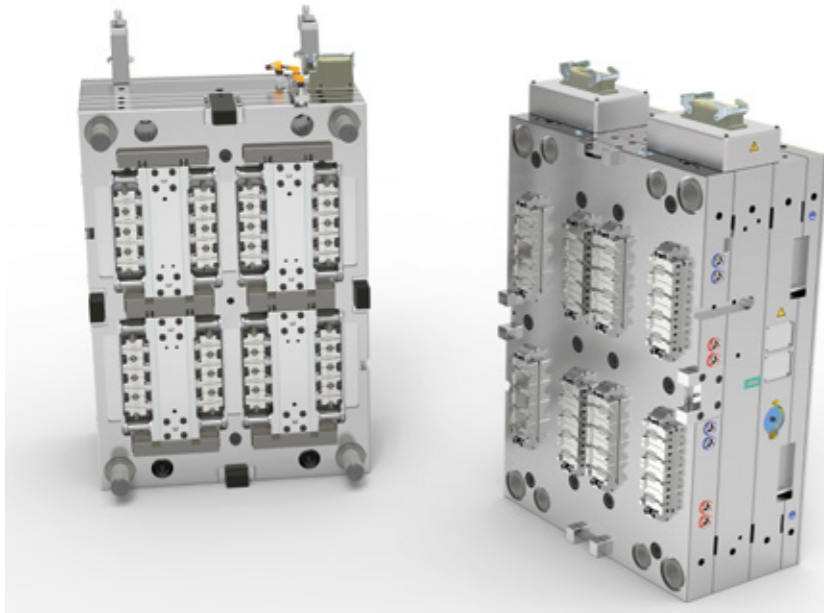

solutions and continuous innovation. This includes fresh ideas for increasing output efficiency, product optimization through moldflow analyses, and the targeted use of synergies from our own plastics processing operations. At Braunform, quality is also an expression of sustainability. Our molds

are designed for maximum durability, ensuring that quality contributes directly to conserving valuable resources. A hallmark of Braunform is our guarantee of interchangeability. Tool inserts are manufactured using state-of-the-art production methods with a precision of 0.005 mm.

Engineering

Made in Germany

The Braunform Standard:

- Lift&Strip²®
- Multi-Component Molds
- Multi-Cavity Molds
- Stack Molds
- Cube Molds
- MED Mold®
- Braunform Rotary Table

RESULT: OUR CUSTOMERS GET MORE FROM US THAN EXPECTED – WHICH IS UNIQUE ADDED VALUE BY ADDITIONAL OPTIONS ALL AROUND THE MOLD THAT CAN BE FREELY CHOSEN. AND OUR CUSTOMERS RETURN. WE SEE THAT TO BE SUSTAINABLE INNOVATIVE STRENGTH.

Clean room production for the highest requirements

BRAUNFORM PHARMACEUTICAL TECHNOLOGIES. SERVICE AND QUALITY, CREATING TRUST.

Vision

Portfolio

Technology

Our Identity

A MOLD SHOP SETTING STANDARDS. PERFECTLY MASTERED TECHNOLOGY – THE BASIS FOR IMPRESSIVE NEW SOLUTIONS.

MOLD DESIGN / ENGINEERING

- Risk analysis and solutions
- Mold Flow and design phase
- Mold FMEA and checklist
- Design Qualification

BRAUNFORM MED Mold® ARE USED IN NUMEROUS MEDICAL AND PHARMACEUTICAL APPLICATIONS, E. G. INHALANT AND PORT SYSTEMS.

MANUFACTURING

- Ultra-modern and precise equipment
- Steel test reports and review
- Internal mold performance test

MOLD QUALIFICATION

- Function test and dry run
- Process evaluation / DOE
- Metrology
- FAT

BRAUNFORM MED Mold®.
HIGHEST COMPETENCE. NO
COMPROMISE - BECAUSE WE
KNOW WHAT IS AT STAKE.

Clean room injection molding places the highest demands on mold design. The Braunform MED Mold® reflects all of our expertise in the field of clean room molding.

Pharmaceutical and technological know-how join forces here in order to realize particle-free solutions for our discerning customers in the truest sense of the word.

The most important task in this is preventing any contamination of the plastic articles. Braunform relies on a number of technologies and measures in order to consistently achieve this goal. Highest process accuracy guarantees our customers maximum confidence in sophisticated production.

- CLEAN ROOM ACCORDING TO GMP C + D
– validated according to DIN EN ISO 14644
- VALIDATED production processes
- DOCUMENTATION GMP-compliant
- STANDARD-COMPLIANT DOCUMENTATION
– Validation and Qualification

At home in the region, in demand worldwide

SUSTAINABLY CREATING EXTRAORDINARY MOLDS AND THUS FUTURE.

Our Identity

Our Customers

We make our customers more successful

Industries such as pharmaceuticals, consumer goods, packaging and automobiles have different needs, but always the same goal: to ensure their long-term economic success with innovative high-performance mold making solutions.

Our goal is a satisfied and successful customer. For us, customer orientation means permanent dialogue with our customers and a lasting business relationship based on partnership. All activities are aimed at achieving customer satisfaction.

Our Team

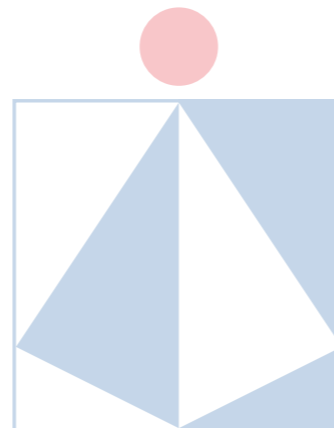

We employ qualified

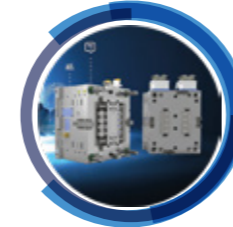

Our employees, through their commitment and the quality of their work, play a decisive role in the success of our company. We support this by designing a motivating and creative working environment, because highly qualified, highly motivated and team-oriented employees shape our processes.

We know: only people working with highest motivation and a great deal of passion are able to produce something extraordinary.

BRAUNFORM TAKES RESPONSIBILITY AS A FAMILY-OWNED, REGIONALLY BASED COMPANY. WE ARE ACCORDINGLY COMMITTED TO OPERATING RESPONSIBLY. FOR THE REGION AND FOR THE FUTURE.

Our Know-How

With our R&D we daily work to be and remain technology leader.

Engineering Made in Germany – on this we are proud! Our goal: we remain technology and innovation leader. We work in a unique combination of safe process control, state-of-the-art production technology and perfect craftsmanship.

Our know-how which has grown in decades of pioneering innovation flows into the design of our injection molds. This includes ideas for the efficient increase of output quantities and the maximum longevity of our molds.

Our Sustainability

We do not talk but act sustainably to protect the environment.

Our goal is to further reduce our energy consumption during the next years! Key factors for this are our energy management, state-of-the-art production processes, material management, our waste management and ultimately every team member of Braunform GmbH.

We support and advise our customers in regard to sustainable production processes and material savings by using sophisticated injection mold technology. We are fully committed to the principle of responsibility for our future.

Our Quality

Highest quality and understanding for the demands of our customers are essential.

We see the consistent monitoring of our high quality standards as a success factor to further expand our leading position in the market. The clear focus on quality and continuous improvement is an integral part of our success.

To implement our corporate policy we use a management system considering the requirements and expectations of our customers and authorities.
