PRESS RELEASE

Braunform GmbH congratulates trainees on successful passed exam

A total of five trainees in three professions have finished their three-and-a-half year training period successful: Felix Vogt, Tobias Keller, Marco Hannemann – tool mechanics (m/f), Tamara Leber – technical draftswoman (m/f) and Florian Klaus – electronic technician (m/f). Especially the performances of Tamara Leber and Tobias Keller can be pointed out as they were both awarded with a price of the respective vocational school.

All five graduates will be taken over in an employment after their apprenticeship. They will gain their first work experience in three different company divisions like Moldshop, Design Department and Technical Services because for skilled workers they will find all doors open for the future.

The sector training has a long tradition at Braunform as the company invests in its future since many years by offering various training occupations in the technical and commercial field. Since the beginning as a company that takes on trainees, already more than 125 qualified employees finished their apprenticeship successfully and could be taken over in a field of application afterwards.

Due to the annual training information day (05.07.2014) all interested applicants get the possibility to gain an insight into the apprenticeship company Braunform.

Braunform at a Glance

Founded in 1977, today Braunform is with more than **315 employees** considered to be an innovative leader in the plastics processing industry. The precision mold shop is distinguished by its profound understanding of technology and sophisticated customer requirements as well as its high sense of awareness for quality.

The company stands for **Full Service Engineering** in mold manufacturing, starting with the development right up to the qualification and to a demanding clean room production. The fully air-conditioned mold shop with the latest production technology belongs to the world leading facilities for mold technology. The industries Braunform services include **Pharma, Personal Care, Consumer Goods, Packaging, Automotive, Electric and Water Technology**.

The company is specialized in the manufacturing of **multi-component molds, multi-cavity molds, stack molds, molds for the medical industry (MED-molds®)**, as well as fast and long-life **rotary tables**. In addition Braunform is characterized as an ideal partner for new product ideas with **thermoplastics, TPE, silicone** and **ceramic**. For the pharmaceutical industry Braunform offers sophisticated manufacturing processes including automated assembly and stamping systems in clean rooms ISO class 7 + 8. In the **Technology center**, customers may use injection mold machines with 2 component (with silicone injection) and 3 component applications for pre-series manufacturing.

Due to the project management and the full-service engineering **shortest time-to-market times** become possible and **costs** are **significantly reduced**. The main focus is always on **process assurance, shorter cycle times, increasing output quantities and all at the highest of quality - Engineering made in Germany**.

Braunform is a long-term oriented, family-owned company. This is illustrated through a high reinvestment quotient and in a trainee percentage of 13% of the regular workforce.

Braunform – Connected to people. At home in the region. In demand worldwide.
