## PRESS RELEASE

**„Innovative by research“ – Braunform has been awarded with the official seal of the German “Stifterverband”, a business community initiative advocating long-term improvement of the German education and research landscape.**

As one of Germany’s biggest private academic patron, the „Stifterverband” appreciates companies who are engaged in the field of research and development. On the basis of an annual elevation, which is regularly carried out on behalf of the Federal Ministry of Research and Education, selected companies are awarded with the seal of research.

According to German Stifterverband there are 3,5 millions companies in Germany, but only less than one percent doing research. However, this is exactly the way innovation and progress could be generated, which again has a positive impact on the sustainability of a country.

### Braunform at a Glance

Founded in 1977, today Braunform is with more than **315 employees** considered to be an innovative leader in the plastics processing industry. The precision mold shop is distinguished by its profound understanding of technology and sophisticated customer requirements as well as its high sense of awareness for quality.

The company stands for **Full Service Engineering** in mold manufacturing, starting with the development right up to the qualification and to a demanding clean room production. The fully air-conditioned mold shop with the latest production technology belongs to the world leading facilities for mold technology. The industries Braunform services include **Pharma, Personal Care, Consumer Goods, Packaging, Automotive, Electric and Water Technology**.

The company is specialized in the manufacturing of **multi-component molds, multi-cavity molds, stack molds, molds for the medical industry (MED-molds®)**, as well as fast and long-life **rotary tables**. In addition Braunform is characterized as an ideal partner for new product ideas with **thermoplastics, TPE, silicone** and **ceramic**. For the pharmaceutical industry Braunform offers sophisticated manufacturing processes including automated assembly and stamping systems in clean rooms ISO class 7 + 8. In the **Technology center**, customers may use injection mold machines with 2 component (with silicone injection) and 3 component applications for pre-series manufacturing.

Due to the project management and the full-service engineering **shortest time-to-market times** become possible and **costs** are **significantly reduced**. The main focus is always on **process assurance, shorter cycle times, increasing output quantities and all at the highest of quality - Engineering made in Germany**.

Braunform is a long-term oriented, family-owned company. This is illustrated through a high reinvestment quotient and in a trainee percentage of 13% of the regular workforce.

**Braunform – Connected to people. At home in the region. In demand worldwide.**
