

PRESS RELEASE

Positive response at this year's training day at Braunform GmbH in Bahlingen - The new application period for young talents starts now

For the tenth time Braunform organized a “day from trainees for trainees” on Saturday, 22nd July 2017. Over 50 interested pupils came to Bahlingen, mostly together with their parents. The training day at Braunform GmbH offers the opportunity to get to know the training course, the company and the training center.

This day exclusively planned by Braunform trainees starts with the official welcome by personnel manager Oliver Bornhäuser at 10 o'clock. Following the trainees presented the company first and afterwards their apprenticeship. They gave an insight to their daily routine as a future tool mechanic (f/m), process mechanic (f/m) mechatronic engineer (f/m) industrial salesperson (f/m), as well as a technical product designer (f/m). For high school graduates a dual study in mechanical engineering, specializing in plastics engineering was presented. The subsequently performed company tour was complemented by a question and answer session with trainees and trainers. The conclusion of both the participants and the organizers was very positive.

Braunform sees it as its task - not only in view of the increasing demand for skilled workers due to demographic change – to give young people a modern education directly in production – and management process, as well as the support provided by a highly qualified instructor's team. In own projects by the apprenticeships, for example, the Science Days, the trainees of Braunform GmbH are able to contribute creatively and quickly assume responsibility.

The commitment to education is evident, among other things; by the award as a regional company at "Jobmotor 2015" in the category "Finding and retaining employees". Decisive for this award are the smart ideas for staff retention, especially in the field of education. Braunform also received an outstanding testimony of the performance by winning the award

"Top Job" as one of the best employers in Germany. The company receives this award after 2014 once more in 2017.
