

PRESS RELEASE

Braunform looks back on a successful week: “Science Days” at Europa Park, trade fair Fakuma and regional training fairs take place

A big crowd of people at the “Science Days”

For the fifth time Braunform participates at the “Science Days” at the Europa Park in Rust, Germany. From 19th to 21th October 2017 children, youths and their parents take part in numerous offers under the motto “the human”. A total of 85 exhibitors give the possibility to experience science and technology closely with experiments, workshops and shows. The focus is on the active participation of visitors.

In cooperation with the wvib (Business Association of Industrial Enterprises Baden e. V.) and four companies in the region a joint project arise with different stations, on which a pneumatic gripping arm can be produced. Step by step, interested people go through each station under professional guidance to hold their own workpiece in their hand at the end.

As an external event the “Science Days” is one of the trainee projects at Braunform where apprentices are able to contribute creatively and take over large parts of the organization.

Successful Fakuma – international trade fair for plastics processing celebrates its 25th anniversary

Braunform may not be missing at this industry event. With a 50 square meter booth and an eight-person team, the company presents itself according to the motto “40 years of innovation – made in Germany“. More than 1.800 exhibitors and 40.000 trade visitors find their way to Friedrichshafen, Germany. Our trainees from the third year of apprenticeship take also part of it: they explore the fair by solving tasks from their trainers and thus gain insights into the world of plastics technology.

Positive response at regional training fairs

As a training company Braunform participates regularly in events such as the “Job-Start-Börse” presenting its training and study offers. The direct contact with the pupils is very important for the company in order to support them individually in their professional orientation. Interested young people have the opportunity to get in contact with trainers and trainees and to gain first hand experience.

Picture survey:

Science Days: Trainees supervise children in the production of the gripping arm.

Fakuma: Trainees in the third year of apprenticeship with company founder Erich Braun.

Job-Start-Börsen: Trainer and apprentices give information to interested people.

Braunform at a Glance

Founded in 1977, today Braunform is with **375 employees** considered to be an innovative leader in the plastics processing industry. The precision mold shop is distinguished by its profound understanding of technology and sophisticated customer requirements as well as its high sense of awareness for quality.

The company stands for **Full Service Engineering** in mold manufacturing, starting with the development right up to the qualification and to a demanding clean room production. The fully air-conditioned mold shop with the latest production technology belongs to the world leading facilities for mold technology. The industries Braunform services include **Pharma, Personal Care, Consumer Goods, Packaging, Automotive, Electric and Water Technology**.

The company is specialized in the manufacturing of **multi-component molds, multi-cavity molds, stack molds, molds for the medical industry (MED Mold®)**, as well as fast and long-life **rotary tables**. In addition Braunform is characterized as an ideal partner for new product ideas with **thermoplastics, TPE, silicone and ceramic**. For the pharmaceutical industry Braunform offers sophisticated manufacturing processes including automated assembly and stamping systems in clean rooms GMP C and D. In the **Technology center**, customers may use injection mold machines with 2 component (with silicone injection) and 3 component applications for pre-series manufacturing.

Due to the project management and the full-service engineering **shortest time-to-market times** become possible and **costs** are **significantly reduced**. The main focus is always on **process assurance, shorter cycle times, increasing output quantities and all at the highest of quality - Engineering made in Germany**. The company is certified according to DIN EN 13485 / 15378 / 9001 / 14001 / 50001.

Braunform is a long-term oriented, family-owned company. This is illustrated through a high reinvestment quotient and in a trainee percentage of 12 % of the regular workforce.

Braunform – Connected to people. At home in the region. In demand worldwide.
