

## **PRESS RELEASE**

---

### **Trainees of Braunform GmbH passed their exams successfully**

The General Management of Braunform GmbH graduates five young tool mechanics for their successful finished training period. After three and a half years of training, the handover of the apprenticeship diploma takes place.

Following their three-and-a-half years apprenticeship Sven Kreutner, Hendrik Paluda und Michael Vogel (tool mechanics) as well as David Erb (mechatronics engineers) are taken over in a permanent employment relationship. Their next career step will be started in various departments of the company, such as flat grinding, die-sinking EDM, assembly and technical service to gain their first work experience. Jan-Niklas Krumm is leaving the company at his own request to undertake a longer journey.

Braunform underlines its responsibility as an employer and educator by offering young people a professional perspective through a qualified training. Since many years, Braunform invests in its future by offering various training occupations in the technical and commercial field.

The medium-sized company has always placed great emphasis on the quality of apprenticeship. Each year 12-14 apprentices are intensively trained and taught. On average, more than 40 apprentices and students of DHBW passed through their education in the company in parallel.

The great importance of education work also shows in the annual training day in July that aims on getting the possibility to gain an insight into the company as well as the offered apprenticeships at Braunform.

## Picture survey:

Beginning from the left behind: Training Manager Urs Breitenbach, Head of Finance and HR Manager Oliver Bornhäuser and General Manager Klaus Bühler congratulate on passed exam.

## Braunform at a Glance

Founded in 1977, today Braunform is with **375 employees** considered to be an innovative leader in the plastics processing industry. The precision mold shop is distinguished by its profound understanding of technology and sophisticated customer requirements as well as its high sense of awareness for quality.

The company stands for **Full Service Engineering** in mold manufacturing, starting with the development right up to the qualification and to a demanding clean room production. The fully air-conditioned mold shop with the latest production technology belongs to the world leading facilities for mold technology. The industries Braunform services include **Pharma, Personal Care, Consumer Goods, Packaging, Automotive, Electric and Water Technology**.

The company is specialized in the manufacturing of **multi-component molds, multi-cavity molds, stack molds, molds for the medical industry (MED Mold®)**, as well as fast and long-life **rotary tables**. In addition Braunform is characterized as an ideal partner for new product ideas with **thermoplastics, TPE, silicone** and **ceramic**. For the pharmaceutical industry Braunform offers sophisticated manufacturing processes including automated assembly and stamping systems in clean rooms GMP C and D. In the **Technology center**, customers may use injection mold machines with 2 component (with silicone injection) and 3 component applications for pre-series manufacturing.

Due to the project management and the full-service engineering **shortest time-to-market times** become possible and **costs** are **significantly reduced**. The main focus is always on **process assurance, shorter cycle times, increasing output quantities and all at the highest of quality - Engineering made in Germany**. The company is certified according to DIN EN 13485 / 15378 / 9001 / 14001 / 50001.

Braunform is a long-term oriented, family-owned company. This is illustrated through a high reinvestment quotient and in a trainee percentage of 12 % of the regular workforce.

**Braunform – Connected to people. At home in the region. In demand worldwide.**
