

PRESS RELEASE

Training at Braunform successfully completed

The General Management graduates five trainees for their successful finished three years training period: Selina Ruh (Industrial Clerk), Dennis Kreutner (Process Mechanic) and the Tool Mechanics Manuel Hügler, Toni Trinkler und Lukas Schumacher. Especially the performances of Manuel Hügler and Toni Trinkler can be pointed out as they were both awarded with a price of the respective vocational school.

Following her apprenticeship, Industrial Clerk Selina Ruh will expand her expertise in the field controlling / accounting. In order to deepen his knowledge gained from the training even further, Manuel Hügler will begin a dual study in October, for the Bachelor of Engineering, mechanical engineering degree course – specialization in plastics technology, at the DHBW in cooperation with Braunform. The two Tool Mechanics Toni Trinkler and Lukas Schumacher will gain their first work experience in the department cylindrical grinding and assembly. Dennis Kreutner will support the technical service.

With a wide range of training professions, an in-house training center as well as two full-time and highly experienced trainers, the SME underlines the significance and importance of training, which is firmly anchored in the company's strategy. Each year 12-14 apprentices and students of DHBW are intensively trained and taught. On average, more than 40 young talents passed through their education in the company in parallel.

The quality of the training is also reflected in the award achieved this year by the magazine FOCUS MONEY as "Best Training Company in Germany" in the category "rubber and plastics industry".

Beginning from the left behind: Training Manager Urs Breitenbach, General Manager Klaus Bühler and Head of Finance and HR Manager Oliver Bornhäuser congratulate on passed exam.

Braunform at a Glance

Founded in 1977, today Braunform is with **375 employees** considered to be an innovative leader in the plastics processing industry. The precision mold shop is distinguished by its profound understanding of technology and sophisticated customer requirements as well as its high sense of awareness for quality.

The company stands for **Full Service Engineering** in mold manufacturing, starting with the development right up to the qualification and to a demanding clean room production. The fully air-conditioned mold shop with the latest production technology belongs to the world leading facilities for mold technology. The industries Braunform services include **Pharma, Personal Care, Consumer Goods, Packaging, Automotive, Electric and Water Technology**.

The company is specialized in the manufacturing of **multi-component molds, multi-cavity molds, stack molds, molds for the medical industry (MED Mold®)**, as well as fast and long-life **rotary tables**. In addition Braunform is characterized as an ideal partner for new product ideas with **thermoplastics, TPE, silicone** and **ceramic**. For the pharmaceutical industry Braunform offers sophisticated manufacturing processes including automated assembly and stamping systems in clean rooms GMP C and D. In the **Technology center**, customers may use injection mold machines with 2 component (with silicone injection) and 3 component applications for pre-series manufacturing.

Due to the project management and the full-service engineering **shortest time-to-market times** become possible and **costs** are **significantly reduced**. The main focus is always on **process assurance, shorter cycle times, increasing output quantities and all at the highest of quality - Engineering made in Germany**. The company is certified according to DIN EN 13485 / 15378 / 9001 / 14001 / 50001.

Braunform is a long-term oriented, family-owned company. This is illustrated through a high reinvestment quotient and in a trainee percentage of 12 % of the regular workforce.

Braunform – Connected to people. At home in the region. In demand worldwide.
