

PRESS RELEASE

Two 25-year seniority

In October 2021, Braunform GmbH honored two anniversaries - Sandra Wagner and Jörg Müller can each look back on 25 years of service.

Continuity and loyalty are not a matter of course in today's fast-moving times. That is why it is a special pleasure to have employees in the company who have been committed for 25 years and who prove their strengths in their areas of responsibility every day anew. The management expressed its gratitude to the employees celebrating their jubilee for their dedication, commitment and absolute reliability. Sandra Wagner and Jörg Müller have contributed a great deal to the company with their great dedication and in-depth specialist knowledge, and it is impossible to imagine the company without them as know-how carriers. Pamela Braun, managing partner, stated that their performance, but also their passion, were the foundations for the company's success.

At Braunform GmbH, which now is with 380 employees, qualification and further training as well as self-responsibility are of highest priority. Many of the employees of Braunform GmbH are loyal to the company for decades. This is the success of a strategy of continuity, fairness, loyalty and reliability.

In October 1996, Sandra Wagner started her career in order management at the mold manufacturer. There she was responsible for the complete order processing and looked after customers worldwide from the pharmaceutical, personal care, automotive and electrical sectors. After her parental leave, Sandra Wagner moved to the purchasing department in March 2012, where she still works part-time and is a reliable and valuable support for the team.

In 1986, Jörg Müller began his training as a toolmaker at Braunform GmbH. After successfully completing his training, he was employed in various specialist areas and thus gained extensive know-how. From 1995-1996, he completed the master craftsman's examination. For 25 years, the tool expert has now been strengthening the design

department and, as an experienced design engineer, has been implementing a wide range of projects, especially for customers in the personal care sector. For many years, Jörg Müller has also been responsible as a trainer for the technical product designers and trainees.

Braunform at a glance

Founded in 1977, Braunform with 380 employees is now considered to be an important employer in the region. The long-term oriented family-owned company based in Bahlingen and Endingen am Kaiserstuhl is an industrial solution provider and strategic partner in the field of injection molds. Braunform is one of the world's leading companies in the plastics processing industry and has set itself the goal of manufacturing injection molds with which - according to the current state of the art - plastic as a raw material has no alternative or is more resource-friendly than the possible alternative. The fully air-conditioned precision mold shop with the latest production technology serves industries such as Pharma, Personal Care, Water Technology and Automotive. In addition, pharmaceutical products are produced in state-of-the-art clean rooms with highest quality standards for customers worldwide.

The certified company relies entirely on "Engineering Made in Germany" and a high trainee percentage (12 %). The sustainability statement, which is firmly anchored in the company's policy, commits Braunform to constantly improving its own CO2 footprint. The company's corporate health management as well as the social commitment are given high priority. As one of the best employers in the field of SME's in Germany, Braunform received the "Top Job" award for the third time in 2020, after 2014 and 2017.
