

PRESS RELEASE

Successful graduation

Trainees graduate with excellent results

The management of Braunform GmbH congratulates the newly graduated specialists Luca Flamm (tool mechanic), Moritz Koch (tool mechanic) and Oliver Schwär (process mechanic) on successfully passing their exams after the three-year training period. The company is particularly proud of the outstanding performance of the three apprentices who have received a prize or praise from the Chamber of Industry and Commerce as well as the vocational school.

On the part of the specialist departments, the interest in self-trained junior staff is very high due to the found training. Luca Flamm will take his next career step in die-sinking EDM, where he will gain his first professional experience on state-of-the-art machines. In order to further deepen the knowledge gained during his apprenticeship, Moritz Koch will start a dual study program for a Bachelor of Engineering degree in mechanical engineering, specializing in plastics technology, at the DHBW in cooperation with Braunform in October. Oliver Schwär will also continue his professional career with the medium-sized company and strengthen the Technology Center. Here, the injection molds produced are tested under practical conditions, optimized and prepared for smooth serial production.

Braunform has been providing training for over 40 years. The company's management and human resources department attach great importance to providing precise training for the skilled workers of tomorrow. The goal is a very practice-oriented training and a timely integration into the company processes.

Braunform at a glance

Braunform GmbH, founded in 1977 by Erich Braun in Bahlingen a. K., today is one of the world's leading partners in the field of plastic mold making. The long-term oriented family business has made it its goal to produce injection molds for whose end products - according to today's standards - plastic as a raw material is without alternative or more resource-saving than the possible alternative. The unique selling point of the mold-shop is the pharmaceutical production in own clean rooms according to GMP C and D. Today, Braunform GmbH is managed by Mrs. Pamela Braun (Managing Partner) and Mr. Emmanuel Foyer (General Manager). With 365 employees, the company is considered to be an important employer in the region in the southwest of Germany.

Mission Statement

Molding Your Visions: We mold the needs of our customers. We provide solutions to effectively produce our customers' products using clean, state-of-the-art technology with core competencies in mold making, injection molding and full service.

Braunform in Detail

Braunform specializes in the production of multi-component molds, multi-cavity molds, stack molds, molds for medical technology (MED Mold®) as well as fast, long-lasting rotary tables. The fully air-conditioned precision mold shop with state-of-the-art production technology serves – amongst others – industries like pharmaceutical, personal care, water technology, electrical and automotive. For the pharmaceutical industry, sophisticated manufacturing processes, including automated assembly and stamping, are implemented in state-of-the-art clean rooms in accordance with GMP C and D. In our own technology center, injection molding machines for 2K (with silicone gating) and 3K applications can be used for pre-series production. Due to project management and full-service engineering, shortest time-to-market times are made possible and costs are significantly reduced. Key elements are process reliability, shorter cycle times, increased output and highest product quality in combination with support and consulting for sustainable production processes. The company is certified according to DIN EN 13485 / 15378 / 9001 / 14001 / 50001.

The company is fully committed to "Engineering Made in Germany". This includes not only a highly qualified, enthusiastic team and a high proportion of apprentices (10%), but also highest quality and technological leadership. The declaration of sustainability, which is firmly anchored in the company's policy, commits the company to constantly improving its own CO2 footprint. In 2020, the company was also awarded a silver medal by the sustainability platform "Ecovadis". Both company health care and social commitment are given high priority. As one of the best employers in Germany, Braunform received the "Top Job" award for the third time in 2020, following 2014 and 2017.
