

PRESS RELEASE

A total of more than 6,000 euros for a good cause

For well over 10 years now, it has become a tradition at Braunform GmbH to donate to socially committed organizations, associations and institutions at Christmas and also during the year. This year, too, the company dispensed with Christmas presents for customers and partners and donated instead.

The association for children with cancer e. V. in Freiburg (€ 1,500), the University Hospital for the project "Tigerheart... if parents have cancer" (€ 1,500) and the association "Haus Johannes e.V." in Bahlingen (€ 1,000) were extremely pleased.

The association for children with cancer e. V. takes care of the concerns and needs of families with a diseased child. "Tigerheart... if parents have cancer" is a donation-financed children's and youth program of the Psychosocial Cancer Consultation at the Tumor Center Freiburg – CCCF and supports affected families. The association "Haus Johannes" has set itself the task to support the general life in the house to organize leisure activities, to enable purchases that are outside the budget for care and support.

The music club Bahlingen e.V. also received a donation of € 2,000 this year. Thanks to this donation, a new baritone saxophone can strengthen the saxophone register. The baritone saxophone convinces especially with its deep bassy sound and will support the bass voice in the music society in the future. Bernd Schneider, Philipp Schneider and Julia Meyer from the music club presented the new instrument at the Braunform company headquarters in Bahlingen and expressed their sincere thanks to Pamela, Elke and Erich Braun.

The social position "Braunform – we act" is very important for the company and also this year anchored in the company's policy. As a regional medium-sized enterprise, the company assumes its social and cultural responsibility to its employees and the society. Key elements of this responsibility include, inter alia, the well-being and the health of the staff but also the social commitment. "The support of regional organizations and

associations is close to our hearts. It's important for us not to lose sight of a company's social responsibilities", emphasizes Managing Director Pamela Braun.

Braunform at a glance

Braunform GmbH, founded in 1977 by Erich Braun in Bahlingen a. K., today is one of the world's leading partners in the field of plastic mold making. The long-term oriented family business has made it its goal to produce injection molds for whose end products - according to today's standards - plastic as a raw material is without alternative or more resource-saving than the possible alternative. The unique selling point of the mold-shop is the pharmaceutical production in own clean rooms according to GMP C and D. Today, Braunform GmbH is managed by Mrs. Pamela Braun (Managing Partner), Mr. Emmanuel Foyer (General Manager) and Mr. Joachim Stiller (General Manager). With 365 employees, the company is considered to be an important employer in the region in the southwest of Germany.

Mission Statement

Molding Your Visions: We mold the needs of our customers. We provide solutions to effectively produce our customers' products using clean, state-of-the-art technology with core competencies in mold making, injection molding and full service.

Braunform in Detail

Braunform specializes in the production of multi-component molds, multi-cavity molds, stack molds, molds for medical technology (MED Mold®) as well as fast, long-lasting rotary tables. The fully air-conditioned precision mold shop with state-of-the-art production technology serves – amongst others – industries like pharmaceutical, personal care, water technology, electrical and automotive. For the pharmaceutical industry, sophisticated manufacturing processes, including automated assembly and stamping, are implemented in state-of-the-art clean rooms in accordance with GMP C and D. In our own technology center, injection molding machines for 2K (with silicone gating) and 3K applications can be used for pre-series production. Due to project management and full-service engineering, shortest time-to-market times are made possible and costs are significantly reduced. Key elements are process reliability, shorter cycle times, increased output and highest product quality in combination with support and consulting for sustainable production processes. The company is certified according to DIN EN 13485 / 15378 / 9001 / 14001 / 50001.

The company is fully committed to "Engineering Made in Germany". This includes not only a highly qualified, enthusiastic team and a high proportion of apprentices (11%), but also highest quality and technological leadership. The declaration of sustainability, which is firmly anchored in the company's policy, commits the company to constantly improving its own CO2 footprint. In 2020, the company was also awarded a silver medal by the sustainability platform "Ecovadis". Both company health care and social commitment are given high priority. As one of the best employers in Germany, Braunform received the "Top Job" award for the third time in 2020, following 2014 and 2017.
